

Twin Charger/Discharger for DR36/DR202/NJ1020

Automatically detects capacity error and cycles battery to recalibrate. Suitable for the HP Veridia M3/M4, and all Smart batteries with an integral 5 terminal AMP connector.

MODEL	CE MARK	PART NO.
BATTERY CHARGER		
SBS 3002	CE	04992

The LED will illuminate to indicate the status of the battery as follows:

LIGHT	DESCRIPTION	STATUS
○	OFF	No battery
((●))	Green flash	Fast charging
●	Green solid	Fully charged
((○))	Yellow flash	Recalibrating
●	Yellow/green	Recalibrated
●	Yellow solid	Standby
((●))	Red flash	Error

In order to keep the battery fuel gauge as accurate as possible, it is necessary to occasionally run the pack through a recalibration cycle. Place the pack in the left bay and press the button on the front label.
